

PowerGranules BIO® is our brand new Granules optimized for and used in GRANULDISK pot washers.

PowerGranules BIO is pure power - eliminating pre-washing - forever.

All while being kind to the environment.

MADE FROM CALCIUM SALT, RAPESEED OIL.

AND A COMBINATION OF BIODEGRADABLE ESTERS.

BIODEGRADABLE.

A GREENER OPTION.

We've tested and tried for hours and hours, to find a Granule with the right shape, density and size, to efficiently clean your wash ware. All while being kind to the environment. PowerGranules BIO is biobased and made from three main ingredients: calcium salt, rapeseed oil and a combination of biodegradable esters.

Its special composition gives it the right characteristics; hard enough to remove even baked-on food, but soft enough not to harm your cook ware - and, of course, biodegradable.

PowerGranules BIO is in full compliance with the EU requirements for use in contact with food, and harmless in case of ingestion.
